Principal’s Message

It has been a very busy couple of weeks with me in and out for lots of professional learning. I am very excited to introduce the Focus on Reading program this term.

Students are very excited to begin Robotics and have started to build and name their Robots. William and Sara will be attending a training program for Robotics on the 5\textsuperscript{th} of April.

Christopher and Michael had a great time at Young Leaders day and learnt all about how little things make a big difference, making good choices and integrity. I know that they learnt a lot and will put it into practice in their leadership roles.

We joined 450 other students from local schools yesterday to participate in the first GCOPS combined choir practice. They did a fantastic job and Kate and Sara helped Mrs Powles teach everyone a song by doing a solo.

In the classroom students have been learning about chance and data and Mathematics. A big thanks to the students for being so sensible and cooperatively while I’ve been away.

Kind regards,
Kristy Grant.
Playgroup
Our next playgroup session will be on Monday the 7th March at 9:00am. All welcome.

Canteen
Monday’s canteen (7/3/16) will be fish and chips with gravy. Please return the order form and payment to school on Monday.

P&C Meeting
Next meeting will be on Tuesday, 15th March at 2pm and this will include the Annual General Meeting. Our first Bike Ride catering will be Sunday 3rd April.

From Our Students
At Young Leaders Day I learnt how to be fair and be a good leader- Chris.

At Young Leaders Day I learnt to never give up and try your hardest- Michael.

Ava has been practicing her Violin and today gave a recital for the class. It was fantastic, well done, Ava!
